

Medgluv PF Latex
MG100 Series

Characteristics and Overview:

Unique micro-chlorination process results in consistently excellent donning, a soft, comfortable fit and excellent elasticity. Slightly tacky exterior finish provides superior gripping characteristics. Medgluv powder-free low protein latex gloves are the ultimate choice of medical professionals who demand uncompromising quality and protection, with the minimum risk of potential glove related chemical or protein allergies. Specially manufactured with light chlorination rinse, these gloves maintain a non-slip, 'tacky' surface that provides excellent grip for both dry and wet applications. Our Powder-Free Latex Exam glove is an early recipient of the prestigious SMG recognition from the Malaysian Rubber Institute as a recognition for its compliance with high quality standards.

Sizes

MG100XS	MG100S	MG100M	MG100L	MG100XL
X-Small	Small	Medium	Large	X-Large
100 ea/bx	100 ea/bx	100 ea/bx	100 ea/bx	100 ea/bx

Glove Specifications

	ASTM	Medgluv
Length (mm)	Min 220	240
Palm width (mm)	95 ± 10	95 ± 10
Cuff Thickness (mm)	N/A	0.14 (5.6 mil)
Palm Thickness (mm)	min. 0.05	0.15 (6.1 mil)
Finger Thickness (mm)	min. 0.05	0.16 (6.5 mil)
Tensile Strength (MPa)	min. 14	29
Ultimate Elongation (%)	min 500	750

Glove Attributes

Material	Latex
Sterility	Non-Sterile
Color	Beige
Sizes	X-Small, Small, Medium, Large, X-Large
Glove Interior	Powder-Free, Online-Chlorinated
Glove Exterior	Textured
Packaging	100 gloves per box, 10 boxes per case

Quality Standards

Exceeds current ASTM 3578 standard for critical defects (AQL 2.5). AQL for critical defects is 1.5.

Manufactured in accordance with Quality System ISO 9001

Caution: *No sensitizing threshold to natural rubber latex has been established. Any individual with hypersensitivity to natural rubber latex should consult a physician before using any latex product..*
