⚠ IMPORTANT!

Never remove the self-adhesive electrodes from the skin while the device is turned on!
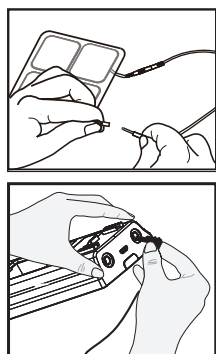

WARNING: Device will not work while charging. Device is partially charged upon receipt. If the electrodes are not placed firmly on the skin or the device has not connected with the lead wires securely, and the output intensity level is equal or greater than 10mA, the intensity will stop automatically.

1 INSERT BATTERY

Press down on the belt clip to release it. Remove the battery cover and insert the battery as shown in the diagram. Replace the battery cover and belt clip.

2 CONNECT LEAD WIRES

Make sure the device is completely turned OFF. Take the pads out of the sealed package; insert the lead wire pin into the electrode pigtail. Make sure no bare metal is exposed.

Insert the lead wires into the output sockets located at the top of the device. Note: If only using one channel, only plug in 1 lead wire.
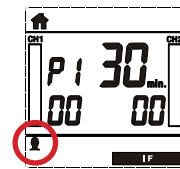

---

3 TURNING THE DEVICE ON OR OFF

Press the [⏻] button to turn the device "ON" or "OFF".

If there is an immediate need to pause treatment, press the [II] button to pause treatment.

Press it again to continue treatment or press [⏻] to stop treatment and go back to the home screen.

4 SELECT THERAPEUTIC BODY PART

There are 6 therapeutic body part buttons available: neck, shoulder, hand, low back, knee and foot. Each therapeutic part has 3 programs – P1, P2 and U1. Total of 36 programs.
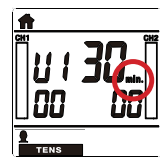

This device is a TENS and IF (Interferential) combo.

### 5 TENS — SETTING THE MANUAL PROGRAM — U1

Select Treatment Mode
Press [**M/II**] button to select the TENS treatment mode. Select the body part which you want to treat. Then press the body part button until the LCD displays program "U1" like the first screen on the left.

Set Treatment Time
Press [**S**] button to enter treatment time, "Min" will flash. Press [**+**] or [**–**] adjust time.
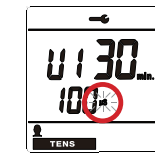

6 SET PULSE RATE

Set Pulse Rate
Press [**S**] button to enter the pulse rate and the "Hz" will flash. Press [**+**] or [**–**] button to adjust pulse rate.

---

7 PULSE WIDTH & START TIME

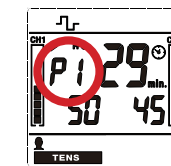

Pulse Width
Press [**S**] button to enter the pulse width and the "µs" will flash. Press [**+**] or [**–**] button to adjust the pulse width.

Start Treatment
Press [**CH1+**] or [**CH2+**] to increase the output intensity of channel 1 and/or channel 2. Press [**CH1–**] or [**CH2–**] to decrease the output intensity of channel 1 and/or channel 2.

When done, press [**S**] or [⏻] to confirm and return to the home screen.
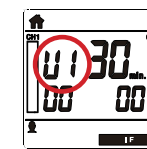

8 TENS — SET PRESET PROGRAMS — P1 & P2

Select Treatment Mode
Press [**M/II**] button to select the TENS treatment mode. Select the body part which you want to treat. Press the body part button until the LCD displays program "P1" or "P2" like the screen on the left.
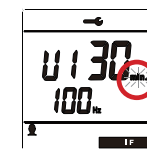

To **set your treatment time** refer back to **Step 5**. To **start your treatment** refer back to **Step 7**.

9 IF — SETTING THE MANUAL PROGRAM — U1

Select Treatment Mode & Body Part
Press [**M/II**] button to select the IF treatment mode. Select the body part which you want to treat. Then press the body part button until the LCD displays program "U1" like the first screen on the left.

Set Treatment Time
Press [**S**] button to enter treatment time and the "min." will flash. Press [**+**] or [**–**] button to adjust the treatment time.
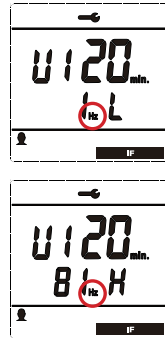

10 SET PULSE WIDTH

Pulse Width
